DETAILED ACTION EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Holloway on December 5, 2006.

The application has been amended as follows:

Claims

2. Claim 9. 'The program counter trace apparatus as recited in claim 10' should be 'The program counter trace apparatus as recited in claim 7'.
3. Claim 10. 'The program counter trace apparatus as recited in claim 10' should be 'The program counter trace apparatus as recited in claim 7'.

Allowable Subject Matter

4. Claims 1-7,9,10 are allowed.
5. The following is an examiner's statement of reasons for allowance: Claims 1-3 are allowed because of the inclusion of the following limitations: 'wherein the program counter trace apparatus is responsive to a debug halt signal, the program counter trace apparatus generating marker signal group identifying the occurrence of the debug halt signal and relating the debug halt signal to the timing trace stream'.

Claims 4-5 are allowed because of the inclusion of the following limitations: 'in the program counter trace stream, including a marker signal group indicating an occurrence of debug halt signal and relating the occurrence of the debug halt signal to the data trace stream and to the timing trace stream'.

Claim 6 is allowable because of the inclusion of the following limitations: 'indicia of the occurrence of a debug halt signal; indicia of the relationship of the occurrence of the debug halt signal to the target processor program execution'.

Claims 7,9,10 are allowed because of the inclusion of the following limitations: 'identifying the debug halt signal in the storage unit in a first location in the storage unit, the signals stored in the storage unit forming a debug halt sync marker; and a FIFO unit coupled to the storage unit, the FIFO unit receiving the debug halt sync marker when the debug halt marker is complete, the FIFO unit transferring the debug halt sync marker to the host processing unit'.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Specification

6. The Examiner acknowledges the amending of the specification.
